

TOP 28-42 mm

GA671F45P

TECHNICAL DATA

Material:

90% carbon steel.
10% polyamide.
Sheet thickness 0.7/1 mm.

Treatments:

Tempering: specific process to ensure maximum ductility.

Zinc coating: specific process to ensure maximum corrosion resistance.

Screw type:

Reinforced, Ø 4,2 mm.

Ductility:

●●●●○

Corrosion resistance:

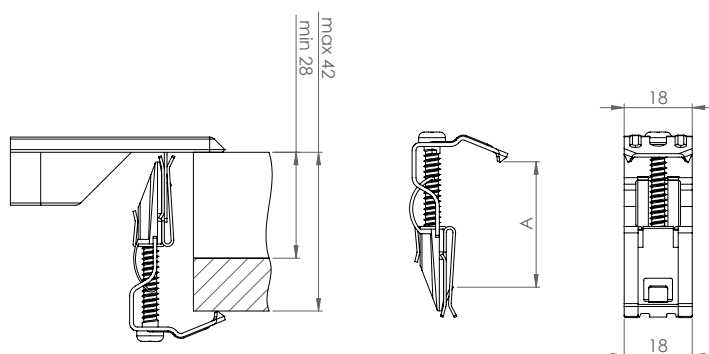

●●●●●

Tensile strength:

●●●●○

Clamping force:

●●●●●

Legend
A=12/32 mm

HOOK FOR STEEL
SINKS FIXING**

GA671F45P HOOK FOR STEEL SINKS FIXING

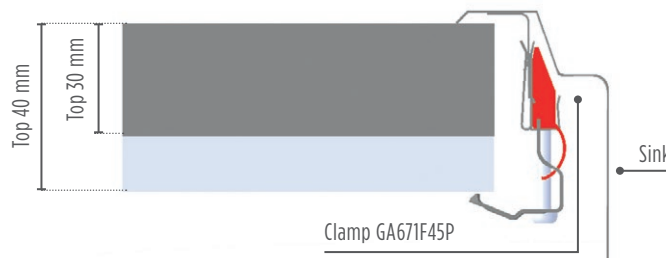

MARCOLINI company has been producing fixing systems for sinks for about 50 years. The collaboration with partners, leader in the sector, allows the creation of high quality products, thanks also to continuous investment in research and development.

GA671F45P is easy to install, it is a stable, safe and guaranteed system over time. The mounting operations of the hook on the sink and of the sink on the top of the kitchen are extremely simple and reliable.

TECHNICAL DATA

- **Material:**
90% carbon steel
10% polyamide
- **Treatments:** tempering, galvanizing
- **Kitchen worktop height:** min 30 mm / max 40 mm
- **Sink type:** all steel sinks

ADVANTAGES

QUALITY

Raw material, stamping, heat treatments and galvanic treatments are meticulously checked both by suppliers and through a series of internal tests (structural, dimensional, hardness, traction, saline mist) at MARCOLINI laboratory.

FUNCTIONALITY

Extremely elastic steel fins that make up the hook allow its easy insertion into the hole of the sink. The hook always remains clamped in the hole of the sink even during the assembly phase.

RELIABILITY OVER TIME

Thanks to the 90% steel structure and the increase to 4.2 mm diameter screw, the maximum tightness is ensured over time.
